# Growth and challenges of Change in Nursing Sector Propelling Market on a High Growth Trajectory

Usama El Safy

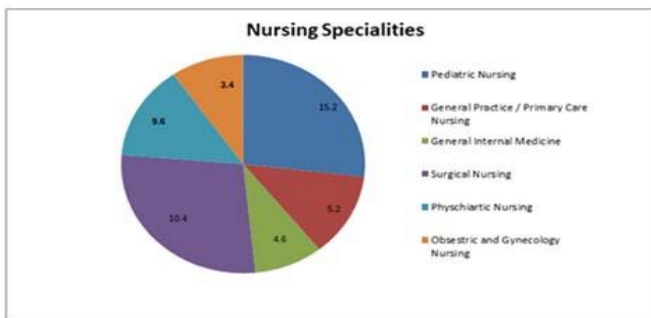

Professor of Pediatrics and Hematology and Oncology Pediatric Dept-Zagazig University-Sharkia, Egypt.

## Quality in Primary Care

[Lexis Conferences](#) presents the “International Conference on Nursing Science and Practice” in Rome, Italy on July 30-31, 2020. The main objective of the conference is to frame networks with individuals from all around the globe so that they can exchange their views, ideas and knowledge in the field of [Nursing](#) and [Healthcare](#). Nursing is such a field which is growing very rapidly with all the new technologies coming up in the market which has a great potential value in the [world market](#). The organisation is providing a magnificent chance to all the leading experts from the field of nursing to explore the department of Nursing. Highly affiliated people who attend the summit take the event into a quality international gathering platform to deliver the speech about their experience and accomplishments to the right audience.

[Lexis Conference](#) hopes this conference can outrun the problems and limitations related to nursing sector by analysing the current scenario of the field of [Nursing](#). Nursing aims to show various new technologies, processing and possibilities from different minds from different people from different parts of the globe. The most appealing part of the conference covers a wide range of exhibitions, symposiums, workshops and scientific sessions.

The nursing care facilities industry is [fast-growing](#), but must simultaneously manage multiple competing cost concerns.

With rising health care costs, hospitals are keen to discharge patients sooner, resulting in individuals requiring care for longer periods of time with more [intensive care](#). As a result, the cost of running a nursing care facility continues to climb. Patients may select new lower-priced in-home medical technologies or to be admitted to nursing care facilities. The [substantial cost savings](#) of in-home care combined with nursing care facilities’ poor, but often inaccurate, image provide the nursing care industry considerable completion.

The total U.S. industry market size for [Nursing Care Facilities](#): Industry statistics cover all companies in the United States, both public and private, ranging in size from small businesses to market leaders.

In addition to revenue, the business marketing research shows info on workers, companies, and average firm size.

Investors, banks, and business executives use growth rates and industry trends to understand the market outlook and opportunity. We are expecting around 50+ Speaker and 100+ delegate participants excluding the students for our Conference.

[Nursing Conference 2020](#) is anticipating getting a global audience without segregating the countries based on economic development. For us knowledge is the most powerful tool which cannot be measured by any of the available resources. With great expectations from the globe, Nursing Conference 2020 is looking forward to seeing the professions for the upcoming Nursing Science conferences. We are promised to make you feel, your actual worth of being Nursing Professional for this 30 day in July 2020.

In 2018, spending in [Health Care category](#) is expected to grow by 2.6% to reach \$62.2 billion. Nursing in specific area unit expected to examine the massive pool of job gains from 2017 to 2022 in USA.

As latest reports indicated, that there'll be a [seven-membered](#) increase in nursing positions by 2022.

Registered nurses are highly preferred now-days in Europe. Europe has twenty two universities and one hundred hospitals, hospitals represent thirty.54% of the overall greenbacks spent on [health](#).
