### Abstract:

A female patient age 82 yrs. Suffering from PLID. Shown by MRI report. compression on Neural roots by Intervertebral Disc Prolapses. Suggested by Neuro Surgeons and Orthopedics Surgeon need Laminectomy of that patient to remove Neural compressions. But patient unfit for General Anesthesia due to her Cardiac and Nephrological problems came to me for remedy of that disease by alternative options. Video Showing problems by MRI film What is disc prolapses and herniation ? Common problems due to Disc Prolapses and herniation. Many patients suffer with back pain, legs pain or weakness of the lower extremities of muscle are diagnosed with a herniated disc. Some patients come to physicians for treatment of pain at both legs and backache with weakness. Some doctors diagnose for Lumbago Sciatica and some of them for PLID. Advantages of Acupuncture Acupuncture Acts: But, in case of procedures done by acupuncture needling, the affected cells naturally regain the power to act by increased cell metabolic agents to normal functions. As a result, it is caused to reduce inflammation by producing of new cells. Mode of Therapeutic Actions Ultra sound Diathermy acts to reduce local inflammation and normalize the degeneration due to change of bone. ElectroAcupuncture does the vital role for the cases of PLID. Acupuncture relaxes the superficial and deep muscles by the electrical deep stimulation through neural path way which helps pulling of local discs during traction, which may not be possible otherwise. Similarly, it strengthens weak muscles after traction therapies, for which, the discs dose not placed again due to strengthening of local muscles

### Biography:

Prof. Dr. N. M. kiron. MD. PhD. Dr. Ac (WHO) L. Ac (UK) GNWC (USA) International Gold Medalist in Acupuncture Filed in the world twenty two years Acupuncture Practice & Teaching experiences National Publications 23 International Journal Publications is 9 presently working Professor Head of the Acupuncture Department Gonoshasthaya Somaj Vittik Medical College & Hospital under of Gono University Bangladesh
