Journal of Health and Medical Research is an open access rapid peer reviewed journal which provides a global platform for facilitating and promoting health and medical research communications, exchange of research concepts, sharing of recent developments, observations, expert opinions and innovative concepts as well as coordinated scientific programs. With open accessibility, the journal aims to provide inspiration to the students, interns and young medical professionals in their research careers. Journal of Health and Medical Research is glad to acknowledge that it has published its 1st volume in the year 2019. As it a new journal it gained much attention for the qualitative articles to get published. JHMR has 3 issue releases per year without any delay this is only possible because of the editorial board members. Editorial board members of this journal are very active and makes the issue release on time. Many esteemed professionals and professors work as editorial team members for this journal who are throughout the world.

Journal of Health and Medical Research has different articles which includes research, review, case reports, short commentaries etc. Peer review process is possible only because of the authors, editorial team members and reviewers in a qualitative method. Authors can easily submit their article by the link provides in the journal home page. Soon after receiving the manuscript the article will be sent for preliminary quality check and the result will be known within 24-48 hours of initial submission whether the article is accepted or rejected. On an average the article acceptance or rejection will be informed to author time to time after initial submission.

Editorial tracking system is provided for the Authors, editors, reviewers and publishers to track their manuscript flow. Authors can easily submit their manuscript in the editorial tracking system of journal through the link provided on the home page of the journal. Authors can easily track their manuscript status through the credentials given to author at the time of submission. As it is a peer reviewed process our reviewers play an important role in providing review comments of the article to process further. I would like to thank all the reviewers and editorial team who is working on the journal for manuscripts proofing and final editing before publication.

JHMR has used social media networking platform in 2019 to interact with authors, reviewers and editors along with public and professionals throughout the globe. Journal is having followers in Twitters where we post latest updates related to health and medical on daily basis. JHMR also provides WhatsApp contact numbers for queries related to topics to be covered in our issue release to authors or editorial team for easy access. Journal of Health and Medical Research is also having LinkedIn account.

By 2019, JHMR has completed one successful year in publication with many peer reviewed articles with the support of the authors, editorial team members and reviewers. In future we are expecting many more articles will be published in our journal which reaches the aims and objectives of the journal.

Most of the readers who are important part of our journal because of whom everything is possible. This is possible only due to the open-access platform. Google analytical report of this journal shows a good number of visitors which coined the success of our journal.
