

Past Webinar Report- Webinar on Pharmacology and Toxicology

Meetings international extends our immense pleasure and honor to invite you to attend “Webinar on Pharmacology and Toxicology”, scheduled on September 25, 2020. It is focusing on the theme “Emerging Trends in Pharmacology” to enhance and explore knowledge among academics and industry personnel dealing with Pharmacology, Toxicology and its related subjects.

Pharmacology is the branch of the biology involved with the study of drug action wherever a drug will be loosely outlined as any artificial, natural or endogenous molecule that exerts organic chemistry or physiological impact on the cell, tissue, organ or organism. A lot of specifically, it's the study of the interactions that occur between a living organism and chemicals that have an effect on traditional or abnormal organic chemistry operates. If substances have healthful properties, they're thought-about prescription drugs. Name: Wei Ling Huang, Traditional Chinese Medicine Researcher, Brazil

The meeting reflected various sessions, in which discussions were held on the following major scientific tracks:

Scientific session/tracks:

- o Ocular Pharmacology
- o Pharmacology
- o Toxicology
- o Pharmacogenetics & Pharmacogenomics
- o Food & Chemical Toxicology
- o Neuropharmacology and Psychopharmacology
- o Cardio Vascular Pharmacology
- o Ethnopharmacology
- o Nursing Pharmacology
- o Biochemical Pharmacology

With the grand success of Pharmacology congress2020, Meetings international is proud to announce the “Webinar on Pharmacology and Toxicology “ to be held during September 25th, 2020.
