

Professor FR Liang 's experience in the treatment of chronic obstructive pulmonary disease based on the therapeutic principle of “warm yang and transform rheum

Jiao Yang

Chengdu University of TCM, Chengdu, China

Abstract:

As a common diseases ,chronic obstructive pulmonary disease seriously endangers the health of middle-aged patients, professor Liang summarized his experience in the treatment of chronic obstructive pulmonary disease and propose the therapeutic principle of “warm yang and transform rheum”,by acupuncture ‘Jiaji acupoints’ to balance yin and yang, warm yang and transform rheum, stimulating ‘sensitization acupoints’ to disperse pore and soothe yang qi, and combine moxibustion to` tonify yang and transform rheum and resolve stasis . By listing a medical records, this paper introduces professor liang’s experience in the treatment of chronic obstructive pulmonary disease with acupuncture and moxibustion, so as to provide reference for the treatment of the disease.
