EDITORIAL

As our readers know, Journal of Pharmaceutical Sciences and Drug Development is the most preferred and highly accessed a peer-reviewed open access Journal in the field of Pharmaceutical Sciences and Drug Development.

JPSDD is supported by an outstanding Editorial Board of international researchers. This multidisciplinary open-access journal is at the forefront of disseminating and communicating scientific knowledge and impactful discoveries to researchers, academics, clinicians and the public worldwide.

Journal of Pharmaceutical Sciences and Drug Development solicits research contributions pertaining to drug design, drug discovery, natural products, formulation, personalized medicine, testing the efficacy of drug molecule in vitro and in vivo, pharmacokinetics, pharmacogenomics, analytical sciences, nanotechnology, therapeutic aspects, quality control, optimization by medicinal chemistry, drug pharmacodynamics, evaluation of safety and toxicity of drug molecules, regulatory science as well as computational approaches.

Our aim is to encourage prospective academicians and scientists to utilize this opportunity to get their articles reviewed, processed and published at relatively faster pace and at lower charges. In addition to this the authors who publish with us during the year-long celebrations will also be eligible for academic awards recommended by the editorial panel.

The specialty sections of Journal of Pharmaceutical Sciences and Drug Development welcome submission of the following article types: Research article, review articles, short note communications, case reports, Editorials, letters to the Editors and expert opinions & commentaries from different regions for publication.

A standard editorial manager system is utilized for manuscript submission, review, editorial processing and tracking which can be securely accessed by the authors, reviewers and editors for monitoring and tracking the article processing. Manuscripts number will be provided to the corresponding author within 72 hours for the respective manuscript submitted. Fast track Peer-review process in 21 days. Timeline of processing from Submission to Publication is 45 days.

Publication immediately after acceptance. Peer-review by international experts. Enhanced visibility for the published

articles through digital media & Open-Access.

Our editorial team welcomes all researchers across the globe to publish their original works in our open access journals. All articles are evaluated based on an international peer review process. Accepted articles are published in full open access. No login required to read the full text or pdf versions of all articles.

Manuscripts submitted under multiple authorship are reviewed on the assumption that all listed authors concur in the submission and are responsible for its content; they must have agreed to its publication and have given the corresponding author the authority to act on their behalf in all matters pertaining to publication. The corresponding author is responsible for informing the co-authors of the manuscript status throughout the submission, review, and production process.

For its upcoming volume of JPSDD, we will be providing the same features just like 2019 and with the authors support and reviewers work we will go further with 2 issues per year and with more assistance from Editorial team we will try coin special issue related to the topic of our journal. With more furtherance from authors through their qualitative research work our journal will reach greater heights and we always encourage the publication of qualitative research works.
