

## Role of Microorganisms in Agriculture

**Devanoori Ramprasad**

*Nizam College, Osmania University*

### Abstract:

Microorganisms play an important role in agriculture. The microorganisms include- bacteria, fungi, algae, protozoa, viruses. Microorganisms help in organic matter decomposition, humus formation. The important role of microorganisms includes – Nitrogen fixation, phosphate solubilisation, potassium mobilisation, antagonism towards pathogens, pests. Hence, the role of microorganisms in agriculture is indispensable.

### Biography:

Devanoori Ramprasad was currently working as a research assistant in Nizam College, Osmania University.

### Recent Publications:

1. Molecular detection of Mycobacterium tuberculosis in poor-quality cough specimens

2. Detection and phylogenetic analysis of Human bocavirus in children diagnosed with acute respiratory tract infection
