

## Trends in Cancer Stem Cells and Oncology Research

Yusuf Robin

*Department of Pathology, Kings George University, Warsaw, Poland; E-mail: robinyusuff@yahoo.co.in*

This Congress will encourage scientists and researchers and young researchers in their early stage of career graph to widely discuss their outcome so as to enrich and develop the idea by felicitating them with the various Awards in their respective fields. The Main aim is meant to encourage students in taking active part in the International Science platform to sharpen their skills and knowledge.

The Sponsor and Exhibitor in the Conference will get chance to expose themselves to new clients, customer, business, brand awareness and media exposure. Our sponsorship has categorized with Premium Sponsorship Packages: Elite Sponsor, Silver Sponsor, Gold Sponsor, Exhibition, Media Partner, Collaborator, Additional Sponsorship Packages and Advertisements.

We have classified our recognition category in two

Academic Awards

Best Speaker Award

This Speaker award seeks to recognize an individual who have demonstrated excellence when it comes to elaborating the presentation with an ease in Speaker Sessions through an on-going high-quality standard of his experience.

### Best research award

This Research award seeks to appreciate an individual or team who has displayed excellence when it comes to research in their respective area, with high-quality standard of their efforts to make it possible for new innovation.

### Best young researcher award

This Young Researcher award seeks to encourage students in taking active part in the International Science platform to sharpen their skills and knowledge in their early stage of career graph.

### Best poster award

This Poster Award seeks to appreciate an individual who have displayed excellence when it comes to expose research in poster presentation category, with high-quality standard of their efforts to make it possible for new ideas & innovation.

### Best E-Poster award

This E-Poster Award seeks to appreciate an individual who have displayed excellence when it comes to expose research in E-poster category.

## Business Awards

### Best sponsor award

This Sponsorship award seeks to recognize an individual company or organization that has supported our attendees or participants to improve their research, by providing an opportunity to expose their research in an innovative project.

### Best exhibitor award

This Exhibition award seeks to recognise an individual company that has exhibits their related Research ideas and products which has better future scope and helpful for our researchers and scientists in their respective field.

### Best collaborator award

This Collaboration award seeks to recognise an individual or team of organization who have collaborated with us to support each other professional growth and reputation and to be helpful for our attendees or participants.

### Best media partner award

This Media Partnership award seeks to recognise an individual or team of organization who have made partnership with us to broadcast each other professional growth and reputation to be helpful for our attendees or participants.

### Who and Why??

This Conference brings together the specialists from all the aspects to discuss about the future of Oncology and Cancer in today's world to thrive and survive with a better health. Directors specialists, Investigators, Post-Doctoral Fellows, Research and Diagnostic Laboratories, Clinical Fellows, Students, Biomedical Research companies, Healthcare Institutions, Market Research and Consulting Firms, Pharmaceutical Companies and all other interested participants willing to enhance and update the knowledge may attend the conference.

### Cancer stem cells and oncology

The branch of health care that determines the safety & efficacy of medications, devices, and diagnostics and also treatments intended for human use is termed Clinical Research. These are used for the treatment, prevention, diagnosis and relieving symptoms of the diseases. Clinical research may differ from clinical practice. Clinical Practice uses established process, whereas in case of clinical research evidence is collected for establishing the new treatment using "biological marker" .i.e. Biomarker refers to the category of medical signs or say objective indications of the medical state which is observed from outside the patient and is measured accurately.

### Importance and scope

Cancer is second leading cause of death worldwide. Treatments that work for some cancers don't work for the others and sometimes those treatments simply stop working and only a global search for answers will help us get to grip this disease. The conference will provide with an opportunity for the delegates from Universities and Institutes to interact with the world class Scientists and Industry Professionals working in the field of oncology.
