

Webinar on Nano Technology and Nano Engineering

Meetings International proudly announces the webinar on “Nano Technology and Nano Engineering” which is scheduled during September 24, 2020 and it will be organized on the theme “THE RISING ERA OF NANOTECHNOLOGY & NANOENGINEERING”. This webinar invites all the participants worldwide which includes keynote presentations, Oral talks etc. You will be sure to have a meaningful experience with scholars from all around the world. Nanotechnology 2020 is meant to distinguish progresses in nanotechnology and Nano building which comprehensively covers nanotechnology and Nano materials, nanofabrication and utilitarian Nano materials, material science and innovation, bio nanotechnology, propelled materials and material science, electronic-optical and attractive materials, examining test systems, carbon nanotubes, nanowires and Nano sensors, nanotechnology in malignant growth, Nano meds and so on. Nanotechnology 2020 is expecting individuals around the globe and the multi day meeting will affect whole sessions, keynote speakers, workshops, symposiums, publication and oral introductions.

Scientific Sessions:

- Nano technology and Nano materials
- Nanofabrication and functional Nano materials
- Material science and technology
- Bio nanotechnology

- Advanced materials and material chemistry
- Electronic, optical, and magnetic materials
- Scanning probe techniques
- Carbon nanotubes, nanowires and Nano sensors
- Nanotechnology in cancer
- Nano medicines

Speakers:

- Syed Rizwan
- Ganesh Datt Sharma
- Archana Mishra
- Ravi Shankar Kumar
- Hassan Mehmood Khan

The webinar on Nano Technology and Nano Engineering webinar has scheduled very well. This webinar has provided the excellent platform to meet the experts all around the globe. It will be helpful for many new researchers, students and delegates etc. Nano Technology webinar gathers the eminent scientists all around the world to share their eminent research excellency and provide valuable information.
