

What is happening in Canada about the COVID-19 vaccination campaign?

Raphael Louis

Global Healthcare Reform Expert, Canada

Abstract:

Vaccination is one of the most effective ways to prevent the spread and reduce the impact of infectious diseases, whether it is seasonal flu or childhood infections. A safe and effective vaccine(s) for COVID-19 will protect us against the novel coronavirus and will be an important step to safely resume normal life in Canada and around the world. The Government of Canada is working on all possible fronts to secure access to safe and effective vaccines and related supplies for Canadians. Here is what Canadians need to know about a future COVID-19 vaccine.

Canada is recognized around the world for its high standards for drug and vaccine review, approvals, and monitoring systems; these will not be compromised. The Government of Canada has gained real-time access to manufacturer clinical trial data for the most promising vaccine candidates, and is working with the global regulatory community to make sure COVID-19

Biography:

Raphael Louis, (Global Healthcare Reform Expert), is the Founder, Chairman, President & Chief Executive Officer (CEO) of The Federal Association for the Advancement of Visible Minorities (FAAVM), whereas a NFP Corporation including activities such as the FAAVM Socio Economic Development Council (SEDC), which plays a vital portion in the overall mission realization of the organization. He is also Founder/Leader of the National Coalition Party of Canada (NCPC) and believes that

most Canadians who are in the slightest degree politically active are inclined to hold one of the two chief political positions common in this country, what we call conservatism or liberalism, thus politically, Canadians are highly divided. Raphael political vision when it comes to issues of finance, immigration, public health, national security, diplomacy, human rights, international trade, foreign direct investment (FDI) and environmental protection, is that first.
