CANNABIS AND MEDICINAL RESEARCH

November 15-16, 2018 Osaka, Japan

Intellectual property for cannabis start-ups

Luke Zimmerman

Law Office of Luke S Zimmerman APC, USA

The focus of would be to do a summary of what cannabis startup companies need to consider for dealing with their intellectual property an overview of copyright, trademark, patent, trade secret issues. I would then focus specifically on what people would want to know about IP in the United States, different government offices that deal with IP...U.S Copyright Office, USPTO, etc.
