Introduction

High drug costs are a considerable boundary to tolerant access and consistence. However, low medication costs are regularly contended to give deficient motivating forces to development. We propose a "drug-licensing" model for medical care which has the guarantee of expanding drug use without adjusting tolerant cash based spending, well-being plan expenses, or drug benefits.

In a particularly model, people buy yearly drug licenses which ensure free admittance to a clinically ideal number of solutions throughout a year. For the instance of statins, we represent how a particularly model might be implemented in practice.

Entire Sale or Retail Drug License 100% Online Process and Transparent Pricing. Drug License is authorization from the public authority to deal with drugs. There are two sorts of permit, the retail permit and discount permit for drug circulation or deal in India. This permit is given dependent upon specific conditions joined to premises and the able individual who will be dealing with drugs.

Issue of Retail or Whole Sale Drug License

Pharmacist

The medications should be taken care of with by a trained professional, and so far as that is concerned, there is a prerequisite of a certified drug specialist in the event of retail drug permit and if there should be an occurrence of discount an alumni with 1 year experience or undergrad having four years' experience is must

Storage Facility of Drugs

Medicines should be put away at a spotless, ventilated and cool storage space, since certain medications, specifically, the immunizations should be put away in a low-temperature freezing zone. Thus, office of a fridge and climate control system is fundamental for award of a medication permit in India.

Area of Pharmacy Shop

For opening a drug store business, the carpet zone of the drug store should be at least 10 square meters, and in the event that the application is for both retail and discount drug store the base region endorsed in 15 square meters. The premises should be sufficiently ventilated.

Inspection by Drug Inspector

Before the grant of a medication permit, the medication investigator having purview of the zone visits the premises where medication permit is required and confirm the specifics outfitted with the application and whenever required take estimation of the premises and furthermore meet the equipped individual.
